-Passages.

Southern Command Order No. 175 of 1927 is republished for information.

The question as to the necessity of providing families with private steamer passages from England to India was raised by the Secretary of State and considered by the Government of India.

apart from possible objections on medical grounds the issue of private passages during the hot weather it was considered that there should be no restriction on the right of an officer to be accompanied by his family when leaving India."

In the former case it was thought that officers would prefer their families to remain in England and join them in India at the commencement of the cold weather rather than incur the risk of the voyage through the Red Sea and Indian Ocean during the hot weather, with frequently the prospect of separation immediately on arrival consequent on the family being sent to the hills.

For the foregoing reasons the Government of India, decided that the concession sanctioned in A. I. (I) No. B-8 of 1927 should apply only to voyages from India." (Authority:—Army Headquarters No. 41770/Q. 2, dated 9th March 1927.)

QUARTERMASTER GENERAL'S BRANCH.

549—Accommodation

1 Cases have occurred of families landing in the U K not only confident of obtaining quarters but in some cases with the actual assurance from the Overseas Command that quarters would be available. In these circumstances it is considered advisable before each troopng season to notify in Brigade Station and Unit Orders the following considerations —

- (1) N C Os and men returning to the U K for discharge or transfer to the Reserve should realise that the housing shortage is still so acute that lodgings are not easy to obtain. They are therefore advised to make timely arrangements for their accommodation after landing.
- (2) N C Os and men returning on posting to the Home Establishment, to attend courses of instructions or for any other reason involving continuance in the service in the U K must be warned that it is by no means certain that quarters will be available and since lodgings are difficult to obtain it is most advisable that alternative arrangements should be made in good time for the accommodation of their families. In this connection attention is drawn to Army Council Instruction 377 of 1924.

- (3) No soldier serving overseas is entitled to public quarters in the U. K. for his family. Soldiers whose families are returning unaccompanied should be warned to make early arrangements for their accommodation.

If, in any individual case, it is considered very desirable that public accommodation should be provided for the family on arrival in the U. K., an application, giving the reasons for which such special treatment is recommended should be submitted to D. H. Q., for transmission to the War Office as soon as the requirement can be foreseen. Every effort will be made to find suitable quarters, but no guarantee can be given that they will be forthcoming.

Notification of any such requirement for an unaccompanied family must reach the War Office at least a fortnight, if possible longer, before the arrival of the family in the U. K.

COMMANDING CENTRAL PROVINCES DISTRICT.

ADJUTANT GENERAL'S BRANCH. .

917—Accounts. -

Cases have been brought to notice in which considerable delay (in some cases extending over several months) have occurred in the transmission of bills, after completion by the consignees, to the audit officer, Indian Stores Department.

2. It is very important that payments should be made promptly. Delay in payments enhances costs. The system of payment of a percentage of value against proof of despatch has been designed to accelerate payment, but indentors will appreciate that their co-operation is necessary to ensure that the onward transmission of bills is not delayed. Such delays moreover cause inconvenience to the suppliers and create an amount of avoidable correspondence in the Purchase and Inspection Branches of the Indian Stores Department and in the Audit Department.

3. Officers i/c units and formations purchasing stores through the Indian Stores Department will see that bills for such stores forwarded to them for transmission to the Audit Officer, Indian Stores Department, are passed on to that officer with the least possible delay, after completing the required certificate on the back of the bill form.

(Authority:—Chief Controller of Stores, Indian Stores Department No. D-54, d/ Simla 11-6-1927).

918—Accounts.

As stores, some times sent direct by units to Army Ordnance factories for repairs, are rarely if ever, returned to the units after repairs, they should be sent by units on regular vouchers and struck off their ledgers.

With reference to the submission of vouchers and receipts with claims for refund of customs duty.

As all band instruments and accessories are not exempt from duty, it is necessary to have full information in respect of all imports on which a refund of duty is claimed. The instruments and accessories on which a refund of duty is allowed, are the same as those which are permitted free entry when imported by Indian Units. See I. A. O. 725 of 1924.

Claims submitted in future should therefore be prepared as in the proforma attached, and forwarded to Army Headquarters through the C. M. A. concerned, together with customs receipts in support of the amounts claimed. Column 2 of the statement should give the full description of the articles imported (e. g. French Horn, Cornet etc.). General terms as "Musical Instruments", "Goods", "Sundries", "Accessories" etc., should not be used as these do not convey sufficient information to determine the admissibility of the claim for refund. If column 2 is correctly completed as above, tradesmen's vouchers and invoices need not be submitted to Army Headquarters.

Statement of Objects and Reasons

The purpose of the Bill is to remove certain defects which have come to light since the passing of the Cantonments Act, 1924. These are indicated in the notes on clauses below

NOTES ON CLAUSE.

Clause 2—According to a strict construction, the expression “immediate vicinity” might be held to connote actual contiguity. The omission of the word “immediate” is necessary in order to allow of the inclusion in a Cantonment of areas which are not actually contiguous but which lie in close proximity. This follows the wording of section 3, and it is doubtful whether it was ever intended to make a distinction of the kind implied between the two sections.

Clause 3—The Cantonments Act, as it stands, contains a contradiction. While section 23 makes it the duty and privilege of Vice-Presidents to preside at meetings of the Cantonment Board from which the President is absent, section 2 (1) read with section 20 (1), has indirect effect that the President for all practical purposes, can never be absent. It often happens that the office of President is held by a succession of different Commanding Officers within a comparatively short period. For instance, during the temporary absence of one officer from the station on military duty or station leave or during the transfer of his headquarters to a hill station for the hot weather, his place is taken by another officer. The effect of the amendment will be to allow the same officer to continue to hold office as President for a reasonable length of time and to retain his position together with its responsibilities, thus ensuring continuity of administration. At the same time, it will make it possible for Vice-Presidents to preside at meetings of the Board from which the President is absent.

Clauses 4 and 5—In the Punjab Municipal Act, 1911, provision exists for the removal of an elected member of a Municipal Committee, if he has, since his election, become subject to any disqualification which, if it had existed at the time of his election, would have rendered him ineligible under any rule for the time being in force

QUARTERMASTER GENERAL'S BRANCH.

1515—Equipment.

Requests have been received for the issue on loan of directors and stands for use at Machine Gun Concentrations.

2. Directors are not available for issue on loan and, pending the receipt of a full complement of sight instruments which are being provided for Vickers guns, it is suggested that any directors required be obtained on loan from artillery units.

(Authy.—M. G. S. No. 8156/1 (M. G. 2-B.) dated 5th Dec. 1927).

1516—Equipment.—*Ordnance-Cooking Utensils.*

It has been brought to notice that certain units have hitherto held the war proportion of cooking utensils, authorised in E. R. I., Part 2, in addition to the scale allowed as Peace Equipment by Supplement to A. T. M. S., Part II, Sections 2-A. 1921, Table 66-B.

2. This procedure is incorrect. The maximum quantity that a Unit may hold in peace is either the peace scale or war scale, whichever is greater.

3. Units who now hold any excess of cooking utensils on charge, will submit I. A. F. Z.-2098 to the Chief Ordnance Officer for Disposal Orders.

1517—Equipment—*Officers' Tentage.*

Ref:—A. I. I. B-218 of 1927 (para. 1).

Units in the Field Army and Covering Troops dependent upon the ALLAHABAD Arsenal will now submit Indents for the Tents mentioned in the reference quoted if not already in possession.

2. Those in possession should submit a Certificate to that effect.

3. Early action is requested to enable further provision being made where necessary.
